Dear Sirs

**Brighton & Hove Project, Southern Water**  
Marine Drive Concrete Works

I would like to take this opportunity, on behalf of both ourselves and our Client Southern Water, to afford our thanks and appreciation for the recently completed works that you have undertaken at Marine Drive Pumping Station.

Pre-commencement it was recognised that this element of reinforced concrete works was particularly challenging with regard to the intricate nature of the structures to be constructed, especially the various changes to both shape and contour of the walls. Accordingly it was essential that we selected a contractor that would provide the necessary consideration and skill to complete these works. I am pleased to say that you have provided this and met our required expectations.

The finished product looks 1<sup>st</sup> class and several comments have been received, not least from our Client, as to how good this section of the project now looks.

The standard of work that has been completed, and the manner in which it has been delivered, is a credit to your Company and in particular the site team responsible.

Yours faithfully  
**Brighton & Hove 4Delivery Limited**

*pp* Phil Risbridger  
**Contract Manager**
